LIBRARY RESOURCES

Most books listed under the Texts tab are available at the U of T dentistry library. Some of these are on course reserves (and may only be borrowed for a very limited period). Others may be available for a longer loan period (up to one week, with the possibility of renewal). All books, however, are available for review while visiting the library personally.

For more information, you may either contact the library directly or visit the library website and select "catalogue." Type in the name of the text, and if it is available for a one week loan it will be marked as "stacks." If not, they would be designated as "course reserves."
