

CONTINUING EDUCATION LOG SHEET

This is a new simplified log sheet for you to keep a formal record of your continuing education experiences. You can use this form for the reporting period that started on September 15, 2007 and for the new reporting period starting September 15, 2008 until sometime in 2009 when the new Quality Assurance regulation is passed by government and the new continuing education program begins. Credits you earn now will count under the new continuing education program.

Additional copies can be downloaded from the College website at www.rcdso.org. Look for the Continuing Education icon on the right-hand side of the home page.

NEW!

It is no longer necessary to send your documentation in to the College. This covers the reporting period just ending and the new one starting in mid-September. Please keep your own records and files.

COMING IN 2009!

Next year as we switch over to the new continuing education program, the College will be sending out a complete package of information, including a portfolio to help you log your continuing education experiences and keep all the documentation in one handy location.
